Dear Ms Foster

7-11 Herbrand Street, London WC1: Roof top plant

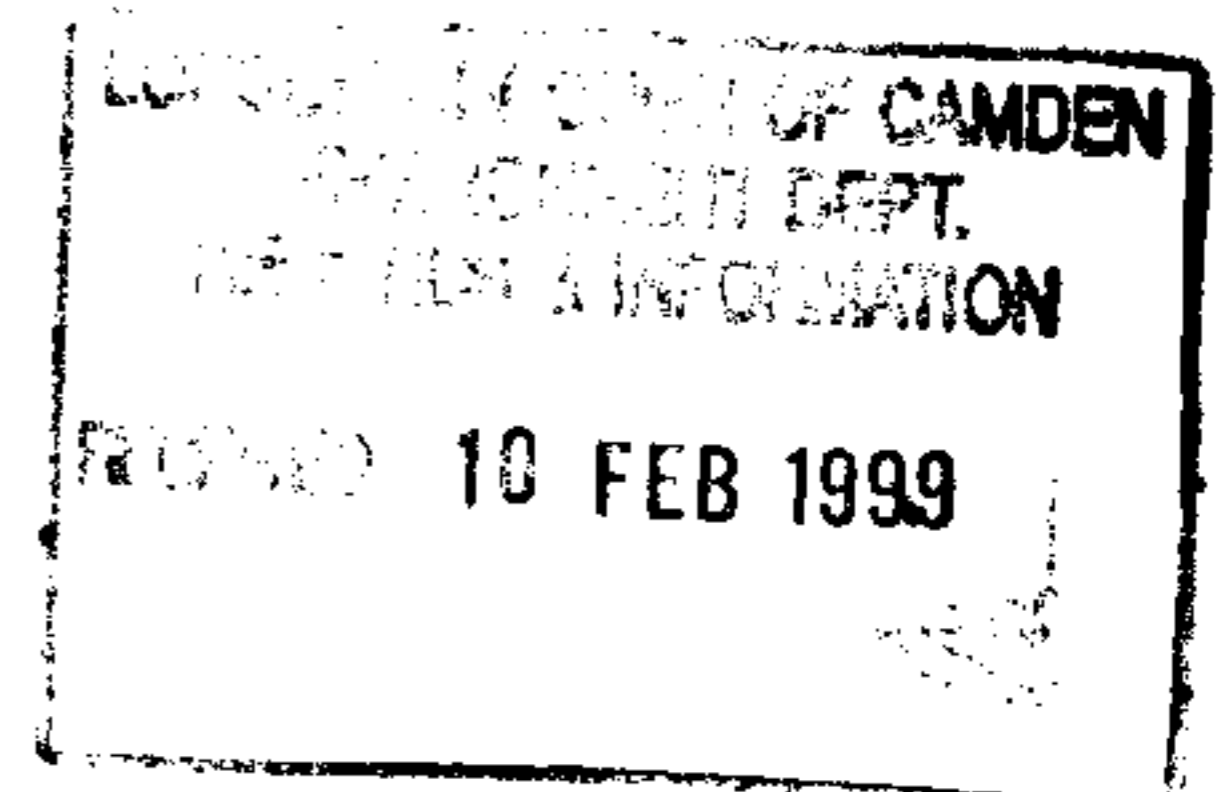

Further to our meeting today, I enclose drawings which show the alternative locations for the roof top plant.

We agreed on this location because it was furthest away from the adjoining residential buildings. I have enclosed the required copies for revisions to both the planning and listed building consent and I understand that you will include these alterations to the scheme within your current consultation.

If there is any further information that is required to progress this application speedily, please let me know.

Yours sincerely

Trevor Clapp
