7. PLANNING APPLICATION FOR RELEVANT DEVELOPMENT - [illegible]

An application for relevant development at the above address was received on 15th October 1976. The proposed development consists of residential units (4314 square metres), shops with storage (1962 square metres), offices (840 square metres), covered car parking and underground station entrance.

The application was considered on 26th October by the Development Control Sub-Committee who recommended "that no steps be taken to acquire the site, in view of the likelihood of reaching an agreement with the developers on the acquisition of the proposed residential accomodation."

Unless an extension of time for consideration of the planning application is agreed between the parties, a decision on possible acquisition of the site by the Council as an "opportunity purchase" under the Community Land Act should be made and communicated to the Greater London Council by 15th November. Notice of the Council's intention would be served on the applicant by 15th December.

Comments by the Town Clerk (Chief Valuer).
