Dear Sirs,

Town and Country Planning Act 1971/74

St Pancras Station Train Shed Roof - Overhead Maintenance Platform

I refer to your letter of the 21st August 1980 and enclosures concerning revisions to part of the overhead maintenance platform which received the grant of list building consent on the 4th January 1979 (HB2013).

I confirm in consultation with the G.L.C., that the proposed amendments (illustrated in drawing numbers 8632/P10B & 86B2/F71B) do not raise any new historic building matters and that these drawings can be accepted in partial substitution for those approved previously.

Yours faithfully,

Director of Planning & Communications_{Jul}
