Dear Sir,

Town and Country Planning Act 1962
Aspithill Square Development

I would refer to my letter of the 9th December last conveying the Council's conditional approval of the details of Blocks 5-10 of this proposed development and to your further submission of the 4th February. The Committee has now approved the revised details of Blocks 5-10 as shown on your drawing No. 256/1B but I am to reiterate that:-

- (a) This decision does not constitute approval of the tenants' stores which, together with details of the car parking provision, pedestrian and vehicular circulation, and landscaping associated with Blocks 5-10, should form part of a further submission showing such details for the entire development.
- (b) This decision is without prejudice to the Council's position as client for the development.

Yours faithfully,

Planning Officer.

Magpie
