

SAFETY HEALTH AND ENVIRONMENTAL INFORMATION BOX

Potential Risks

In addition to the hazard/risks normally associated with the types of work detailed on this drawing take note of the above. This drawing is to be read in conjunction with the relevant Design Risk Assessment and the Contractor's Risk Register. Reference should also be made to the Construction Phase Health and Safety Plan, prepared and maintained by the Principal Contractor. It is assumed that all works on this drawing will be carried out by a competent contractor working, where appropriate, to an appropriate method statement.

- NOTES
- The general contractor is responsible for the verification of all dimensions on site and the architect is to be informed of any discrepancy. Do not scale from this drawing. Use figured dimensions only.
 - The signed control copy of this drawing is held at the offices of Pascoal+Watson Limited.
 - All existing building dimensions and levels taken from survey information unless stated otherwise.

This drawing has been updated to include additional or revised information deemed required to the ARUP/JMP GIP 5 design information. P+W accept no liability for the content of this drawing where it has not been altered from the previous ARUP/JMP revision. This drawing has been produced by the GIP 5 design team and retains the same numbering system for ease of identification. Where set-out dimensions were missing on the previous 09/07/10 Issue JPM drawings these have been added, generally, by scaling directly from the original JPM CAD versions. External cladding/doors to LUL entrance omitted from P6

AS BUILT

05					
04	- LUL doors removed from P6				
	- Uplights removed from WCR roof columns				
	- Notes updated				
	- Spiral stairs indicated to NR Instructions
