This is an application for a determination as to whether the prior approval of the Authority will be required to the siting and appearance of the development.

Telefónica UK Limited, commonly known as O2, has entered into an agreement with Vodafone Limited pursuant to which the two companies plan to jointly operate and manage a single network grid across the UK. These arrangements will be overseen by Cornerstone Telecommunications Infrastructure Ltd (CTIL) which is a joint venture company owned by Telefónica UK Limited and Vodafone Limited.

This agreement allows both organisations to pool their basic network infrastructure, while running two, independent, nationwide networks. It also enables both organisations to maximise opportunities to consolidate the number of base stations and significantly reduce the environmental impact of network development.

This application is submitted for and on behalf of CTIL and Telefónica UK Limited and comprises:

- Written description of the proposed development – Relocation of previously approved 15m high dual stack Elara pole with 6no. antennas within a GRP shroud (relocated approximately 8m) and ancillary development (further to applications 2013/1786/P and 2014/2216/P).
- At – footpath to north west of 242 Grafton Road, Gospel Oak, London, NW5 4AL. NGR E528277 N185361 as defined within the plan indicating its location numbered 100;
- Prescribed fee of £385 made payable by cheque to London Borough of Camden Council;
- Copy of Developer's Notice;
- Confirmation as to whether the developer has had to notify the CAA or MOD or aerodrome operator which clarifies whether the proposal lies within 3km of an aerodrome (not applicable).
