

## Acoustic report checklist for planning applications

Please fill in the checklist and attach to the acoustic report with your planning application.

Please place a tick against one box for every item in each category, to indicate whether the relevant information has been included in the report, excluded, or does not apply.

Category ITEM	Yes	No	Not applicable – state why?
14. Building Orientation/Construction?		✓	Not applicable
15. Noise Barriers/ attenuation proposed?		✓	Not required
16. Equipment Specification?	✓		
17. Noise Management Plan?		✓	Not required
18. Background Noise measurement (General)?	✓		
19. Background Noise (Worse Case)?	✓		
20. LB Camden's Noise Conditions considered under DP28/DP29?	✓		
21. Evaluation/Analysis of measured levels?	✓		
22. Frequency Analysis done?	Yes ✓		See note below
23. Vibration analysis done?		✓	Not required
<b>Other Considerations/comments (please specify)</b>			
Please note re 22 - All calculations have been undertaken based on the manufacturers octave band data, but as the Camden criteria are based on broadband levels (dBA) the final figures are assessed on the basis of a comparison between the measured (broadband) existing environmental noise levels vs the predicted (broadband) plant noise levels
