2014/3351/P	Simon Phillips	2 Gladys Road	29/06/2014 11:24:46	COMMNT	My concern with this application is that it would extend the roof area for the flat above. This would allow them to extend their roof garden under permitted development. This would make their roof terrace very close to our bedroom windows and large enough to become an entertaining space. We already have an issue with noise pollution from roof terrace parties in the summer from the row of house on hemstal road.
