**Description/Notes**

The Smooth Cowl LED retains the versatile nature of the halogen Leon 50, only now it benefits from a newly designed body and a dedicated 11w LED light source. This beautifully designed, adjustable spotlight is perfect for ceilings and other overhead lighting effects. Can be driven at 350, 500 or 700mA with external power source. Further to that we will be incorporating LuxiTune into the Spotlight, Luxitune is the only single-emitter white light engine designed to provide consistent, true color as it dims from bright midday light to the warmer, softer tones of evening. For all downlighting and accenting needs where ambience is paramount, LuxiTune light engines deliver superior light quality and beam control - all with simplicity in installation and energy-efficiency demanded in today's green environment.

Product:	Smooth Cowl Barrel Spot 500mA 10w LED
Code:	X3328 000
Lamp:	500mA 10.3w 7 x Cree XPE LED chips
