

Existing window Elevation
 This looks like it has been altered anyway at somepoint over the years.
 It does not match the window next door and the lower panes are not in the same proportion as the upper .

Proposed window elevation
 Proposal is to leave the window as is and to lower the cill and put doors below the window creating a typical georgian feature .

Proposed window elevation with balcony and planters in position

Plan of proposed lower part of window

50 Doughty Street London WC1N 2JS
