2014/2076/P	G P Edwards	Ground Floor Flat (2) 8 Crossfield Road London NW3 4NS	12/05/2014 13:31:41	OBJ	<p>I would like to object to this structure. I live next door and my view of the garden is dominated by this structure.</p> <p>The picture supplied with the application uses a focal length that minimizes the impact of the structure and in no way provides a true view.</p> <p>The structure is not just wood, it is metal with wood cladding and has a plastic roof.</p> <p>It appears massive in a small garden and is not in proportion.</p> <p>The structure has been built with zero design consideration. It looks cheap and in no way improves the look of the garden.</p> <p>It is not a small shed or summer house and so there is no precedent to build such a structure.</p> <p>The roof collects leaves that rot to a brown sludge, that is particularly obvious all winter.</p> <p>The previous green garden has been removed and replaced by paving and this ugly structure.</p>
