2014/2037/P	Mark Ramsden	Top Flat 61 Lancaster Grove London NW3 4HD	10/05/2014 18:07:18	OBJ	I object to the development for four reasons. First, it's too high. Three levels plus chimneys means that it would be much higher than nearby houses. Second, it requires the destruction of six trees. Third, the basement excavations would threaten nearby trees, drainage and properties. Fourth, the design is a poor pastiche and not in keeping with a conservation area or a nearby listed building.
