2014/2951/T	Azadeh Bagherzadeh	5 Maycroft 36 Lady Margaret road NW5 2QA	10/05/2014 08:15:36	SUPPRT	I favour these works as the roots of the tree have caused the walls of the bedding area to crack and one wall is now leaning over the pavement on Countess road. The tree was self-seeded and we would never have planted a tree in a raised walled bedding area. Camden council building control have visited the site and want the walls to be repaired to avoid any danger to the passing public. For these reasons the tree needs to be felled.
