I think it will substantially enhance the local environment and improve the village nature of Swains Lane. We have been waiting for this development for years and it is long overdue.</p> <p>I think the developers have listened to local concerns and taken them into account extremely well. It will be a huge disappointment if this is rejected again by small minded residents who are resistant to any change or improvement.</p> <p>This is a great chance to improve swains lane for generations to come.</p>
