Helen De Wynter
19 Gloucester Crescent
London
NW1 7DS

Dear Ms Wynter

19 Gloucester Crescent London NW1 7DS

Further to our previous report we are writing to confirm that we have carried out a detailed survey of the basement vaults. We now enclose three copies of our drawings numbers, 14.131/1-4 which indicate the existing and proposed layouts together with an indication of the form of repairs to the cracked masonry for stability. Underpinning requirements are also indicated to ensure the foundations are adequately supported.

We understand that you will be liaising directly with the Local Authority Planning Officers and will pass copies of these drawings to them. If they have any questions, please do not hesitate to contact me.

Yours sincerely,

M A Redston
