### 3. Description of the Proposal

Please describe the proposed development including any change of use:

Enlargement of existing side dormers, new dormer extension, infill dormer extensions, balcony to rear facade and new skylights to existing top floor flat of a detached house.

Has the building, work or change of use already started? ☐ Yes ☒ No

#### 4. Site Address Details

Full postal address of the site (including full postcode where available)

House:	<input type="text" value="19"/>	Suffix:	<input type="text"/>
House name:	<input type="text" value="Flat 4"/>

Description:

#### 5. Pre-application Advice

Has assistance or prior advice been sought from the local authority about this application? ☒ Yes ☐ No

If Yes, please complete the following information about the advice you were given (this will help the authority to deal with this application more efficiently):

Officer name:

Title: <input type="text" value="Mr"/>	First name: <input type="text" value="Obote"/>	Surname: <input type="text" value="Hope"/>
Reference: <input type="text" value="2013/1711/PRE"/>		
Date (DD/MM/YYYY): <input type="text" value="30/03/2014"/>	(Must be pre-application submission)	

Details of the pre-application advice received:

- A. It is considered that the extension of the dormers to the north side elevation would not harm the overall character or appearance of the building as the proposal will comply with the CPG's guidance. However, the new extension should be set back by min. of 0.6m.
- B. The proposed dormer extension to south side elevation is not acceptable unless being set back from existing chimney. Further to telephone conversation with the case officer, it is suggested that this arrangement may be acceptable if existing dormers abutting chimney are being consented previously.
- C. The proposed dormer to the east elevation would not impact on the neighbouring property due to existing windows located at the third and ground level only with unbroken wall at roof level.
- D. The proposed roof lantern would be unacceptable and should be replaced with a conservation style rooflight.
- E. There are established balconies at rear elevation at the second and third floor level. It is not anticipated that the new balcony would have any detrimental overlooking or loss of privacy to existing or the neighbouring properties no.17 and 21 Fitzjohn's Avenue due to the large gaps and dense regeration.
- F. There are no objections to amalgamation of inner dormers as well as rationalise the existing roof terrace enroute to proposed balcony.
