2014/1551/P	Felix & Holly Roberts	66A Malden Road	11/04/2014 14:34:10	OBJ	Our objection concerns the effect that the mentioned works will have on our property as we have two large skylights (on an extension) that are vulnerable to any work done on the roof/rear of the property. These will need to be protected and compensation for loss of light during this time will be needed. As well as this, there is the considerable disruption of works/scaffolding to endure after a year or more of building work at No 68 to consider.
