2014/2409/P	Brenda Eisenberg	45 Achilles Road	16/04/2014 09:39:48	OBJNOT	<p>I am not in favour, because this type of place is not suitable for a residential area - there are flats above, and residences in Burrard, Ajax, and Achilles.</p> <p>Since the cafe/bar has opened, the congestion in the street is very bad. At night there are cars parked on either side of the road, which effectively allows only for one-way traffic. Also, as a resident, it is very difficult to find parking in our street in the evenings (Achilles Road) and this has been made substantially worse by the volume of cars parked by customers of the Shisha cafe.</p> <p>Finally, there is a large amount of outdoor seating which encourages large groups to gather and cause noise in the neighbourhood, into the early hours of the morning. This establishment is not in keeping with the area, which is a quiet residential area with many families with small children.</p>
2014/2409/P	Paul Bramley	35 Ingham Rd NW6 1DG	16/04/2014 11:24:01	OBJ	<p>This establishment is completely out of place with the local environment. Most of the customers are not local: they drive to the cafe and park on Fortune Green Rd (unpoliced) double yellow lines. In addition to the parking chaos, the noise and smell cause a serious nuisance in the locality. Previous planning consents have already increased the traffic and parking issues in the area, notably the gym and Tesco on FG Road. This development, where there has never previously been a cafe, with its draw on people from outside the area will only lead to more discomfort for local residents, traffic problems and a "cafe culture" that does not fit in with the local neighbourhood. There is already one "shisha" cafe 200 yds down the road on the corner of Mill Lane.</p>
2014/2409/P	Tim Birmingham	Burrard Road	15/04/2014 12:00:06	OBJ	<p>the change of use (in retrospect) is causing significant congestion on fortune green road as customers park illegally as a result of this cafe. The location on fortune green road is on a dangerous bend and whilst painting double yellow lines may help it will just divert cars to the neighbouring streets (Burrard / Ingham) causing more parking difficulties for residents where permits stop at 6.30pm. Having an evening venue in this location with outside terracing also creates disturbance and noise to what is a residential area and careful consideration should be given to the impact of such</p>
2014/2409/P	Nikki Krieger	14 Ardwick Road London NW2 2BX	15/04/2014 14:45:08	OBJ	<p>We are a local family and we are dismayed with the level of local noise and traffic caused by this establishment on the weekends and late into the night. As customers are sitting outside, there is noise of talking, cars and of general business. There are SO many cars which are parked on both sides of the road so that its difficult to pass, let alone when the busses try to do so along this busy stretch of Fortune Green Road - even in the evenings. I have no problem with this type of late night cafe in central west hampstead, but around fortune green is where a lot of local families choose to live due to the environment, the types of shops and the fact that its a little quieter. This is out of keeping with the other shops in the Fortune Green area and its such a shame to be set-up in such a gorgeous little corner of west hampstead.</p>
2014/2409/P	Shahina Farid	32 Ulysses Road NW6 1EE	14/04/2014 22:11:44	OBJ	<p>We have objections to this planning application and urge council to refuse. The reasons we cite:</p> <ol style="list-style-type: none"> 1. the shisha bar is inappropriate in a residential area. There are flats above the bar and family properties nearby in Burrard Rd, Achillies Rd, Ajax Rd and Ulysses Rd. 2. There are a large number of outdoor seats encouraging large groups of customers to gather together causing noise and disturbance to the neighbourhood into the early hours of the morning. 3. Parking is becoming even more difficult, as the nearby roads are all de-restricted in the evenings. This is already a problem but the shisha bar is making the problem even worse.

2014/2409/P	G Scalzo	2 Achilles road London Nw6 1dz	16/04/2014 16:46:22	APP	This is a beautiful Greek area this shisha bar is attraction noise and strong smell of the tobabaco till early ours of the morning this is totally unfair the noise of reving there cars wakeing locals up is also not fair as a local resident for over 45 years we have been trying to extend our parking times this was not givin to us we know why also with this bike shop on the corner and cars parked either side of the road which has double yellow lines they don't care there still park there especially week ends there second choice is parking on Achilles road which then we locals can't find any parking this is crazy the council only cares about local business but not the local residents therefore I don't except this application
2014/2409/P	Kate B	48 Mapesbury Road	15/04/2014 08:22:41	COMMNT	This has caused countless dangerous situations alongside the road where cars double park on the dangerous corner opposite Nautilus. Either this needs to be rejected or strict parking restrictions need to be enforced.
2014/2409/P	Frank West	42 Burrard Road West Hampstead	16/04/2014 13:06:02	COMMNT	I would like to object to the planning application for the following reasons. I have already noticed parking is already taken place directly outside the proposed premises during the DAY with vehicles parking outside the premises on the single yellow line causing chaos with the traffic coming up and down fortune green road. I live on the adjacent road Burrard Road and the obvious place to park is in our already over parked street at weekends weekends. We have already noticed an increase in parking due to new local Gym. Besides the eyesore and the smell of smoke whilst walking on the opposite of the road. I do not think these premises are an asset to our area.
2014/2409/P	Riccardo Cumerlato	19A Alvanley Gardens London NW6 1JD	15/04/2014 11:59:43	OBJ	Great to see a nice addition to Fortune Green but why is the shisha bar already operating if the planning application is still outstanding? If illegal not a good start. Also, there currently are problems with patrons parking illegally close to the bar and blocking the street. Does the application address this potential issue?

2014/2409/P	Andrew Shaw	26 Burgess Hill	15/04/2014 22:24:39	OBJ	<p>I am a local resident. I object on the grounds that having a restaurant and shisha house on this busy bend of a narrow road is inappropriate for the area, dangerous to traffic and pedestrians and will cause public order nuisance for neighbours.</p> <p>This venue is already open and the decking constructed (without permission?) so the nuisance it causes to the neighbours is already apparent. Furthermore, the establishment is located on a sharp bend of a narrow single carriageway road around which double decker buses frequently have to pass. This means that any parked cars cause an obstruction. There is already evidence of customers' cars causing this, as well as consequential traffic and pedestrian safety issues. With a school down the road, and a children's learning centre less than 100m away, there is even more potential for a serious road traffic accident to occur.</p> <p>The fact that this establishment's purpose is to permit shisha smoking necessitates customers being seated outside. Not only will this cause noise and nuisance to neighbours, but sets a very poor public health example to the many children who live and play in the area, including in the Fortune Green playground which is almost directly opposite.</p> <p>I strongly object to this permission being granted and urge the Committee not to approve it.</p>
