2014/1367/P	Professor Graham Dunn	21 Lawn Road NW3 2XR	06/04/2014 03:57:15	OBJ	The owners of the Sir Richard Steele pub have now increased their aggressive campaign to convert it to other use. They bought it as a pub, and we local residents hope that they will soon sell it as a pub and take away a modest but fair profit. Although there are still several pubs surviving in the Belsize Park area, the Richard Steele is of crucial importance as one of the last two or three traditional pubs where the local residents meet each other. We hope that the Council will continue to support us and to agree that it is not in the best interests of the Camden community to encourage venture capitalists to seek a quick and inordinately large profit in Camden at the expense of essential local amenities.
