2014/1552/P	Tom Young	19 Bassett St	06/04/2014 18:54:28	AMEND	<p>I wish to draw the case officer's attention to the inaccurate rendering of the chimney stack and pots in the architects section. The drawing falsifies the impression of scale: in fact, the pots are nothing like the architect has shown: they're much smaller.</p> <p>Accurate drawings are an important part of the correct functioning of the planning system.</p> <p>My objection is to LPA allowing the section as a valid drawing: it is not.</p>
