Re Proposed second floor building 7-9 Perrins Court

Dear Ms Miller,

We operate an art gallery and picture framers at 1 Perrins Court and are greatly concerned about the proposed work half way up the court.

We have on several occasions been subject to major building works on Perrins Court. This greatly effects our business. Large trucks park directly in front of our shop for prolonged periods as there is only a small non pedestrian access to the court.

This means customers and our suppliers are unable to access our shop. We are also concerned about the effect to other businesses to the court.

Many thanks and best regards,
Dominic du Plooy
