

I have just received the above council notification and Clare has just forwarded a copy of her email correspondence to you.

I am sure I do not need at this stage to list the inconveniences and poor behaviour of the activities of our neighbours at No 8 Elsworthy Road.

I just lend my support to any conversation that she has had with you on our behalf relating to the above.
regards

Danielle Fluor

[REDACTED]

Further to our conversation today I would just like to confirm that it would amaze me if the above property is allowed to have a new roof as there seems to be nothing wrong with the existing one (the only part of the house they have not wrecked). We in this house are truly desperate to get this building work finished as our lives are hell. For example today they were using a grinder in the back garden so I had to bring everything in from the garden, seal up the doors and windows and have the curtains shut as the dust was harming my lungs. I have not been able to use my garden now for three years. This example is only one day!!

Please do everything in your power to get this wreck rebuilt and finished so that we can then at least move on to have our homes repaired.

Many thanks and I would like to add that you have been as helpful as you can all along in this appalling disaster.

Best wishes, Clare Latimer
