This picture is taken now at 1.30am the shisha shop in Fortune Green is open, full of people and very noisy. There is no sign suggesting that it is about to close so it is likely to remain open well beyond 2am.

The opening hours become longer and longer which is not surprising given the weak and passive approach taken by the Council which seems to be doing nothing to protect the residents in processing this application.

I copy also the owner of the flat which I currently rent in 56 Fortune Green Rd, who have also opposed the application.

Regards  
Giorgio de fanis
