

Dear Fergus Freeney, Planning Officer

Re: Application for extension/2014/3053/p

I live at 131A Leighton Road and this work would affect myself and my two children.

I am writing in to explain my reasons why the planning will impact on my light on both levels (lower and upper) to my maisonette.

I initially talked to the Owner, Jeremy Langshire, about us both doing the extension together.

I have been unable to put in for planning for financial reasons as I am studying teacher training in Design and Technology at university presently.

But if the work goes ahead without my extension it will leave my flat dark and oppressive. [REDACTED] bed rooms will be darkened and gloomy with no view and my only communal kitchen window on that elevation will have tunnel vision.

As much as I understand the need to extend, for one of us to do it without the other would be detrimental to quality of life and being a designer light is my main reason for buying my flat.

I look forward to you visiting on 26th June at 4pm.

Yours faithfully

Julia Meyersohn (Flat A)
