

> As the owner of flat 4 within the adjoining property, ie 76 Greencroft Gardens I object to the proposed extension of the basement area at 78 Greencroft Gardens. This is due to a concern that the integrity of the building will be undermined by such work. We have already experienced some subsidence and need now to address some movement to the flank wall. The building will not tolerate any further disruption to its stability. Add to that the likelihood of flooding, etc, and the prospect of the basement enlargement within the building becomes horrifying
