Dear Sirs

Further to my flowing email, Though I have mentioned all 5 Floors, I want to say that my response was for your letters:

2014/3147/P

2014/3148/P

2014/3158/P

2014/3159/P

2014/3160/P

Best wishes  
Dr Pashazadeh

Dear Sirs

Application reference:2014/3160/P

In response to your letters dated 12 May 2014 regarding planning application for development of Centre Heights at 137 Finchley Road, London NW3 6JG, for change of use of 5 office floors to residential units please note the following:

As one of the leaseholders of Centre heights I strongly object for any expansion of and/or development and change of use. The reason for this objection is more than one . However the most important one is changing image of a historical landmark in Camden and London. Also at present we are in LVT. Landlords have taken us to LVT and the case is still ongoing. We are not quite sure about the costs and real plans for future. We need to know of the extent and final plans and the financial implications first. If you want further information about this please let me know. I have to add that this objection may be reconsidered if we are consulted properly and our Building's structure and our home's future condition is satisfactory for Residents. Also we have to wait for the final verdict of LVT. If the landlords starts talking to residents and respect their view and recommendations and amends their application to reflect all future plans, Then I will write to you. If however the planning office ignores this objection in my view it I will not be a correct decision and I will contest it.

Please advice receipt of this objection.

Best wishes

Dr Mehdi Pashazadeh
