Subject: Urgent infringement on property 61a (Lower ground) Kentish town road-enforcement needed

Categories: Orange Category

Please see below for urgent response thank you!

I believe these people need to be investigated as they do not have authority to place this unit where it is and it is also noisy and causing noise pollution.

Huge thanks

Holly

Subject: Urgent infringement on property 61a Kentish town road due to planning app

Hi Karen

I am appalled to hear from my tenant who is just back from being away due to Ill health that the new hairdresser in 1a Hawley road has installed their air con until by my tenants bedroom on my land at 61a Kentish town road! It is property of 61 Kentish town road with a right of access for emergency only that is all. I attach photos.

This needs to be removed ASAP this week and any necessary repairs made.

I strongly object to this planning application, my points again-

- The air-conditioning units are causing severe noise nuisance and possibly emissions of steam etc. They are very large and in a very confined space very close to residential houses- backed up against my bedroom and bathroom walls! Even if they were to be relocated, e.g., to the roof, they would still be noisy
- There could be upwards of 60 people in the building. Most likely they will come out the back door to smoke during their break which I am not ok with . This will be horrible for me and my tenant who has health issues already as it is right by his flat and there will be smells and noise. If they don't do that, they will be smoking on the pavement outside the front which is right by no 63

- My alleyway where the a/c is installed and where the back door opens onto isn't even part of their property, it belongs to no 61, which the council own.
- There is nothing in the application about their hours of opening so they could be doing this at evenings or weekends
-

I look forward to a prompt response and removal of this Ac unit

Best

Holly simper cc Rich King my tenant
