Planning application number: 2014/2651/P
Planning application address: 86 West End Lane, NW6 2LX

I OBJECT TO THE APPLICATION.

The reason I object the application for proposed work on the 2nd floor is because I live on the 1st floor and two walls in my suite are already cracked. I am concern that during the building work, my flat would be damaged even more. The other reason is a noise nuisance during the building work. My neighbour above me, flat 2, often makes a noise during the night hours (between midnight and 4 am) and I can not bear noise nuisance during the day, as an extra disturbance.

I look forward to hearing from you.

Kind regards,

Marija Vidovic
