I have received a copy of the drawings and have had a chance to consider the plans. I believe this design is an improvement on the previous and have no objection to the proposal.

The majority of other residents on the estate have intended in this manner making the large roof terrace at 64 an oddity on the estate. In fact, I feel extending onto the roof terraces will improve the appearance of the corner by making the block appear continuous rather than two separate blocks that meet, as was the case when we extended onto our own roof terrace.

I also feel that relocating the doors to face towards Quickswood is a preferable arrangement over the previous scheme and will improve the entrance to the estate by giving symmetry. It is also better for us to look towards windows rather than the blank wall previously proposed. The doors are far enough away to not have any effect upon privacy.

I give this application my full support.
