WC1H 8ND

Application Ref 2014/2898/P

With regard to the above planning application I have been a resident of Doughty Street for the past fifteen years and walk through Doughty Mews on my way to work each day.

I notice from the planning application that they propose a change of usage on the ground floor from commercial parking to a 2 x bed, 3 person flat. However the garage has been converted in living accommodation at least for the last eight to ten years which has been occupied.

I cannot understand how a planning application can be applied from now after the work has already been done and there have been people living in there.
