Your comments on the planning application: I object the application for the following reasons:

1. Noise, mess & stress: the extension will create loud noises and mess around the neighbourhood. This will severely disrupt our lives and have serious negative impacts on our living environment. The building work will introduce a lot of unnecessary stress to our lives which is extremely unfair.
2. Potential / future structural damage to the building: if the extension causes permanent / future structural damages, the value of the building will go down significantly, and disputes will happen around who to contribute to the repair costs. This again is unfair for every else living in the property.
3. There is no precedent of the basement extension around this neighbourhood. I was extremely surprised that the council would even consider such major / potentially damaging work. The whole balance of the house would be ruined.
