

Dear Sir / Madam,

**Basement Application for 85 Greencroft Gardens NW6 (ref 2014/2060/P)**

I would like to comment on the planning application to dig a basement at 85 Greencroft Gardens NW6. Our property backs onto the property that has made the application and we are extremely concerned by the proliferation of basement excavations in the area and the significant impact to the surrounding properties.

The house that is adjoined to our property has also made an application for a extremely large basement excavation and we are hugely concerned by the increased flood risk and property damage associated with multiple basements in such close proximity.

Yours sincerely,

Jonathan Abrahams  
31 Aberdare Gardens  
NW6 3AJ
