

Dear Sir/Madam,

I am writing regarding the application 2014/2235/P.

As a managing director of Parkhill Residences, the freeholder of the above property, and as a neighbour (leaseholder), I would like to support this application.

It indeed is very positive that the property is occupied during the day, a situation which is unique of flat 2, 48 Parkhill Road among the three freehold properties (44, 46, and 48). The collaborators of the architect studio usually spend their breaks outside the property, giving a look around and are vigilant on the status of the three building. This adds extra security to all leaseholders and their tenants. Importantly, this occurs with no general nuisance to the other occupants of the freehold. Furthermore, the approachability of the team members and the studio director is second to none, making the interaction with this firm an absolute delight

With best regards
