Your comments on the planning application: In general this is a sensible application that allows substantive progress to be made on Site B in parallel with preliminary work for Sites A, C & D. However, the relaxations requested are couched so broadly that they would in effect waive the requirement to satisfy the Council in respect of the work on Site B. For example, the requested changes to Condition 43 would allow the developer to ignore trees adjoining Site B when building the school. Some of the other proposals would have similar effects.

I therefore suggest that, for example, Condition 43 be amended to allow work on Site B to proceed only when its provisions have been satisfied in respect of Site B. Condition 43 need not be satisfied in respect of Sites A, C & D until work on those sites starts. This is how the request for Condition 25 is worded.

The requests in respect of other Conditions which affect Site B should be amended similarly. Those which do not affect Site B are acceptable as proposed.
