Subject: Trees (list 265) in the DPCAAC

Dear Tree officers and Planners,

2014/2710/T

I did not object to the 30% crown reduction (2013/8066/T) of this Ash tree, but I do object to its felling. I realise that there maybe H and S issues, which hopefully can be addressed. This tree provides **huge** amenity value to the area and especially the residents of the north end wall of Denyer House. If it does not suffer from disease, **please** consider a TPO for this Ash tree.

As yet, unable to view 2014/2677/T.

Thank you,

Eileen Willmott
