

Flat 3, 11 Agamemnon Road

West Hampstead

London NW6 1EB

YOUR REF: RS/PE/EN14/0153

RE Application ref: 2014/2409/P:

Dear Ben/Olivia

Thanks for your last notification. I am completely against the granting of any kind of licence to allow the applicants to operate and continue trading in this establishment. This application heavily and highly negatively impacts upon the local area and its residents. I have now read the application submitted and note it completely omits the following salient points.

- There are 2 more 'cultural' shisha cafes around 8 minutes' walk away so it's not in any way 'culturally' important or necessary to have another one.
- The previous establishments did not create Traffic Hazards and heavily impact on Residents ability to park in their own streets. Which I may add we pay Camden an extortionate sum to already do.
- The previous establishments did not create late night noise and pollution or heavily impact on Residents ability to cross the streets safely.
- The previous establishments did not create a bottleneck for Buses and Large Lorries. Both of which now run late as a direct result of the cafes presence.
- The previous establishments did not create lines of polluting traffic jams for hours at a time in the evening.
- The previous establishments did not really impact on the quality of local residents lives.

In short this is a completely unsuitable type of business to run in a once quiet and peaceful area which is already well served for cafes and restaurants. You will find approximately 20 food establishments 10 minutes' walk away that serve food until late. We don't need another one. We really don't. And especially one that spoils the area.
