I object to this application on the following ground, 1 We are now getting flooded with food outlets underneath our flats, The smells they generate are not very pleasant, These premises were not designed for food and cooking use. 2 It is bringing the area down, making it very un-interesting, Leather Lane market is now full up with food outlets more opening daily what used to be a very tidy! interesting area is now just one big Take away site. I strongly feel that enough is enough
