To whomever this may concern

I am writing regarding the above application reference in response to the proposed development at 138 Highgate Road NW5 1PB.

I strongly oppose the proposal for both the 6 storey and 3 storey building for the following reasons:

[REDACTED] Whether the new building is 3 or 6 stories is irrelevant because both result in me losing 99% of the view from my front windows.

[REDACTED]

If a decision is made for shops to be built on this land then this means that the noise levels will rise considerably, disrupting the way of life for everybody on this estate and no doubt many more in the local area.

I am also concerned about the parking situation for the new build as parking on local streets, and my estate, are already overcrowded and having more commerce in the vicinity will not help this situation.

I eagerly await your response to my comments

Kind regards

Shirley Adams
