Application Comment

Ref: Planning Application 2013/7792/P (No.5 Hilltop Road)
Ref: Planning Application 2013/7801/P (No. 7 Hilltop Road)

Dear Sirs,

I do object very strongly to both the above planning applications and the reason are :

The extensions will greatly diminish the small green area that is contained between Hilltop Road and West end Lane. This is a very urbanised area and any green space has surely to be maintained and treasured.

These applications have been made many times before and refused . The new ones are again an indication that the extensions are not compatible with the area. There are made for commercial justifications.

Both properties were sold for use as single dwellings and have not been used as such since. The applicant is a property developer who does not live in the area and therefore is not concerned about the character of this area..

I will ask the planning officers to refuse again this application as they would change the feel the area and compromise the small but precious green space they will be built on.

Yours sincerely

Maria Herdman
