

I am in favour of "Change of use of public conveniences (sui generis) to bar (Class A4)."

I think this is a great idea. I've lived in the area for 8 years and can't ever remember the toilets being in use? (Someone will tell me now that they're open every weekend :)

I walk past them most days and don't even notice them now.

Are we not for preservation and adaptive re-use?

It'll all help with rejuvenating the Kentish Town area.

Good luck to them with the application.

Cheers

I fully support this application. It seems exciting and innovative and will add some chic to this end of Kentish Town.
