I object to the application (please state reasons below)

Your comments

Dear Sirs,
I am a new tenant since ~~the~~ February 2014 of 31 Percy Street, Lower ground floor and did not know that the land lord applied for planning.
I am totally against it as it would effect my premises immensely.
I am a jeweller and my security is very important and if they start excavation the basement that is a big risk for my business.
Also because of the movement my alarm system will come on continuously.
Therefore I wish to object strongly to the development of the rear extension and basement of the building into a residential flat on the ground of security, noise, disturbance of my property and loss of income.

Please continue on extra sheets if you wish
