

Dear Mr Thuairé

I am in receipt of your letter of 14 February 2014 about revised plans for the Garden House. My home backs onto the Garden House garden, and I do not wish for there to be a larger house reducing the green space I have chosen to live next to for the last 25 years. These revised documents do not change my objections to this proposal, and I hope Camden will listen to my objections and those of others and reject this application.

Your sincerely,
Julie Kleeman
