

Dear Sir/Madam,

re your ref 2014/1336/T Felling of sycamore tree in rear garden 3 Lymington Road, NW6 1HX

I live at 4 Fawley Road which backs on to Lymington Road, and am writing to object to this proposed work. (It appears to be the same as ref 2011/0076/T which I assume was turned down).

The trees in the rear gardens of Lymington and Fawley Roads provide a very important shared amenity for all the residents, which has developed over decades, and it is important that we don't allow the attrition of individual trees.

In particular the trees and the other flora

1. provide a habitat for wildlife
2. help to process carbon dioxide
3. considerably enhance the view: natural greenery instead of brick and washing lines!

I hope you will refuse to allow this work to be done.

Regards,

Peter Croft, Top flat, 4 Fawley Road, NW6 1SH
