Conor,

We spoke on the phone concerning this application some days ago.

I wanted to make the point that there are two very different points of view for the residents affected by this plan. I am aware that you have heard from a representative of GARA to which the resident of Sarre Road are affiliated but we take a different view of the application being made by Linden Wates. You will have read our objections in the submissions we have made which stand as stated. We emphatically object to the proposed scheme on the grounds that it is not significantly different in overall appearance to the scheme put before the recent enquiry and in some respects (the glass boxes) is worse in terms of addressing the conditions set out by the inspector in her decision.

We realise that you have a difficult decision to make on whether this is acceptable but we are minded to oppose this scheme at the DCC should it be recommended to them.

Kind regards

Miles Seaman

On behalf of Sarre Road residents
