24th January 2014

Dear Camden Planning Department

Application 2013/8002/P: 2A Conway Street

We are writing in connection with the above planning application

We would like to object in the strongest possible terms to the proposal for a roof extension and change of use of the top floor of this building to residential use.

This will do nothing to improve the environment in this part of the Conservation Area and will in fact lead to a most undesirable deterioration of the social and commercial mix.

We therefore do not support the application.

Yours faithfully,
