Dear Tessa,

I see that the plans have been revised (on website).

We would like to be kept informed, especially as we are the adjacent property & undergoing subsidence repairs, as I write our engineer said!

We are concerned that any excavation for the foundations do not detrimentally affect the support to side elevation wall to our house or adjoining the boundary fence. We assume the depth of the foundations will not extend below the depth of our foundations (which during recent investigations undertaken in relation to a subsidence claim was measured at approximately 1 M. DEPTH) but if they do then they will need to notify extend below this depth then they will notify us formally via a Party Wall notice.

Thanks, Please advise of any change,

Please continue on extra sheets if you wish
