

## Email of Support - 16 Cleveland Street London London W1T 4HX

I have been looking at the scheme proposed at 16 Cleveland Street and I am impressed that the owners have decided to retain the façade of the building. Being so close to the new Fitzroy Place Development it is imperative that the feel and character of the area is in tact and some of our older buildings are protected from too much modern design.

I also note, that the scheme's subdivision of the space seems to be a very sensible way of utilising the building and I do not believe that the loss of any commercial space on the ground floor will be noticed especially given the secondary location that Cleveland Street is.

Best regards
