

Dear Mr. Thuaire

I live in Caenwood Court next door to Athlone House and I am incensed by the NIMBY objections to the new development. I like the design and I trust you will afford the owner a consent to allow him to build. I believe a site owner should be allowed to construct a building which meets planning requirements and if the present application does meet them, I will look forward to seeing the new property in due course, even though I will experience a measure of inconvenience during the building period. Perhaps the objectors would like to pull down Kenwood House also as it is out of scale with all the other properties around it as well!

Additionally, I note that the objectors describe the proposed house as a "Palace". This is inflammatory and has overtones of racism.

Yours etc.

Michael Haltrecht
