

To whom it may concern:

I have just received a letter from Pearce and Pearce Surveyors informing me of my neighbour's, Ms Grey at 191 Brecknock Road, N19 5AB, planning application 2013/6736/P.

The planning application is for "Erection of a conservatory." I have told my neighbour that I strongly object to her plans to build a conservatory. The reason I object is that the conservatory she is planning to build would obstruct my light and view from a room in my house that I use every day of the week. Because of the obstruction I am also concerned that it would have a deleterious impact on the value of my property.

Can you please note my objection to this application and confirm that you have received this email?

I would also like to make a Complaint to Camden Planning because I never received any notice of my neighbour's planning application. If I had not received the surveyor's letter, I would never have known the planning application had been submitted nor would I have had a chance to lodge my objection.

Yours sincerely,
