

From 122 Mansfield Road NW32JB.

My comments regarding this proposed development.

We would hope that the trees behind the gardens of 126 and 128 Mansfield Road would be retained. They not only offer privacy to the occupants of the above houses but shelter several species of birds during spring and summer. We understand that the children in the nursery school also enjoy seeing these birds and learning about them. It would be a great shame to destroy a natural habit such as this.

At the consultation meeting at Gospel Oak School we understood from the Headmaster and council representatives that a fence might be installed behind the gardens. This would be of great advantage in cutting down the noise from the school as well as giving some privacy.

We hope these comments will be given full consideration.

Margaret and Patrick Casement
